

# CELEBRATE

10 YEARS OF OCEAN EXPLORATION

You are cordially invited to celebrate NOAA's achievements in ocean exploration on Tuesday, September 17, 2019.

This event will take part at the NOAA Booth at the Hawaii Convention Center Kamehameha Exhibit Hall III, as a part of the OceanObs'19 Showcase. Lightning talks will take place from 4-5pm with light refreshments to be served at 5pm.

Craig McLean, NOAA Research's Assistant Administrator, is hosting this ceremony to celebrate the milestones in ocean observing in support of NOAA's mission of science, service, and stewardship.

As part of this celebration, we would like to recognize the tenth year of ocean exploration from the NOAA Ship *Okeanos Explorer* for a decade of innovative, exciting expeditions around the globe, providing information that is critical to sustaining the economy, health, and security of our nation.

We hope you can join us in celebrating this milestone along with other accomplishments in ocean observations.

Tuesday, September 17, 2019 • 4-6pm
